BOARD POLICY 5000

PURPOSE

The Board of Trustees encourages students, parents/guardians, and faculty and staff to be fully informed about their rights and responsibilities related to student records. In order to provide students with appropriate instruction and education services, it is necessary to maintain extensive and sometimes personal information about students and their families. The Washoe County School District ("District") shall employ safeguards related to access, maintenance, and confidentiality of student information and records.

Reasonable methods shall be used to ensure that administrators, faculty, staff and other individuals acting on behalf of the District obtain access to only those protected education records in which they have legitimate educational interests. The District shall employ best practices for ensuring reasonable methods are used to protect personally identifiable student data. Such practices may include, but are not limited to:
 - i. Individuals accessing student records understand the limitations on the use of the data;
 - ii. Individuals accessing student records understand that data will not be re-disclosed without permission.
 - iii. Procedures for records destruction by third parties shall be clearly documented; and
 - iv. A rigorous data security plan for all users shall be implemented and maintained.

A school official also may include but is not limited to: a volunteer, intern, resident, student worker, or contractor outside of the school who performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of Personally Identifiable Information from educational records, such as an attorney, auditor, medical consultant, or therapist.
 - ii. A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill his/her professional responsibility.
- d. Student records are the property of the District but shall be available in an orderly and timely manner to parents/guardians, eligible students, and other individuals as specified in Administrative Regulation 5005, Student Educational Records, or as required by law. Parents/Guardians and eligible students have the right to inspect, review, and confirm the accuracy of the student's education record, and, under certain conditions, require written permission for the District to release those records.

2. Governing Practices

- a. Education records are those records that are directly related to a student and maintained by the District. There are limited exceptions to what constitutes an education record under federal law, including, but not necessarily limited to the following.

 - ii. Records of the law enforcement unit of, or working in, the District (this does not include discipline records maintained by school staff).
 - iii. Records relating to the employment of a student by the District that are not available for use for any other purpose.

 - v. Email that is not printed and placed in the cumulative file.
- b. A cumulative record shall be maintained for each student beginning with enrollment into a District school until withdrawal or graduation from the District. The District shall establish administrative regulations and procedures governing the content, management, destruction and challenge of student records. Such procedures shall ensure that records are accessed by authorized persons only.
- i. Consistent with federal law, student records shall be forwarded to other school agencies upon request. Parent/Guardian or eligible student consent shall be required before the District may release student records other than to a school agency or organization, except as otherwise provided by law.

Such procedures may not be used to challenge a grade, an opinion, or a substantive decision made by a school about an eligible student.
- c. The District shall provide parents/guardians and/or eligible students with annual notice of their rights under the Family Educational Right to Privacy Act ("FERPA"). This includes:
- i. The right of parents/guardians or eligible students to inspect and review education records, any procedures that must be followed in order to inspect and review records, and that a reasonable fee may be charged for copies of records.
