 - b. The parents of students or students themselves, if considered an adult under Nevada law, the Family Educational Right to Privacy Act (FERPA), and/or the Individuals with Disabilities in Education Act (IDEA) (both hereafter referred to as Applicant), have the right to review and inspect

their educational records, unless the District is provided with evidence that there is a court order or other legally binding document that revokes those rights.

2. Request to Review and Inspect

- a. Parents/guardians or eligible students shall be allowed to inspect and review the education records of their children (or for eligible students, their own records) within a reasonable period of time, not to exceed 45 calendar days following the District's receipt of the request.
 - i. If the request to inspect records is prior to an Individualized Education Program (IEP) meeting or prior to a meeting that may lead to qualification of a student for an Individualized Education Program and the requestor provides the District with at least ten (10) business days' notice prior to the IEP meeting (or meeting that may lead to qualification of a student for an IEP), access to inspect the records must be provided prior to the IEP meeting or the meeting which may lead to the student being qualified for an Individualized Education Program.
 - ii. In all cases, the parents/guardian and/or any person the parent/guardian has provided written permission to inspect will inspect records at the school site, looking at the student information system and/or the Individualized Education Program system with the principal or the principal's designee.
- b. If the Applicant desires copies of their educational records, they shall use the online electronic records request process by going to <https://washoeschoolsnv.scriborder.com/> or call (775) 861-4428. The following exceptions occur:
 - i. District sponsored charter schools maintain their own records. The charter school must be contacted for student records.
- c. Within 45 calendar days of the receipt of a request for access to educational records, the Applicant will receive the records. The right of access specified above shall include:
 - i. For Special Education Students Only: The right to be provided a list of the types of education records which are maintained by the District and which are directly related to students. This list is maintained by the Office of Student Records.

the community). Such copies are subject to the fee schedule found at <https://washoeschoolsnv.scriborder.com/>. All current students receive four (4) free records per year.

- iii. The right to inspect and review the contents of those records.
 - iv. The right to a response from the District to reasonable requests for explanations and interpretations of those records.
 - d. If any material or documents in the education record of a student includes information on more than one student, access shall be limited only to that part of the material which relates to the Applicant or to the right to be informed of the specific information contained in the material if it is not severable.
 - e. Video and/or Audio as Educational Record
 - i. The District allows for the inspection of video related to students. However, the District does not have systems to redact student information of students other than the Applicant's student.
