

Administrative Regulation 5106 STUDENT UNIFORMS ADOPTION AND CANCELLATION GUIDELINES FOR A SCHOOL SITE POLICY

Responsible Office: Office of Teaching, Learning, and Leadership

PURPOSE

This Administrative Regulation establishes the adoption guidelines for a school-site policy related to student uniforms in the Washoe County School District (District). The intent of a site-based student uniform policy is to generate an effective learning environment, create and maintain a favorable school image, and promote positive self-image among students.

DEFINITIONS

1. "Content-based exception" refers to an exception that is directly concerned with the content of the expression and is excepted because of the message, ideas, and/or subject matter of the clothing. Invalid content regulation includes not only exceptions on particular viewpoints, but also exceptions for an entire topic. Content based exceptions (clothing not allowed as an exception to the school uniform) include but are not limited to: Team clothing (i.e., football jerseys); and uniforms of outside organizations in lieu of the school uniform (i.e., boy scout uniform).
2. "Unprotected speech" may include, but is not necessarily limited to, the following: obscenity, fighting words, defamation (includes libel, slander), child pornography, perjury, blackmail, incitement to imminent lawless action, true threats, solicitations to commit crimes, and speech which is vulgar or profane. Unprotected speech may also include any article of apparel, or publication that displays obscene words, pictures, or designs; speech which has a message that is pro-alcohol, tobacco and/or controlled or illegal substances; publications, clothing, or items that symbolize gang-related behavior; speech that does not comply with the District's policies and regulations, interferes with the educational process and/or poses a threat to the safety of students or other individuals.

REGULATION

1. The Board of Trustees (Board) authorizes the Superintendent to allow District schools to establish a school-site policy that requires students to wear school uniforms. Schools that choose to adopt a site-based student uniform policy shall follow a collaborative, inclusive process.
2. In accordance with state law, each site-based policy shall:
 - a. Include a description of the uniform (i.e., colors, types of clothing);
 - b. Designate the hours or events during which the uniforms must be worn; and

- c. Describe the program of financial assistance for the acquisition of uniforms by parents/guardians.
3. The specific prohibitions and limitations of the District’s Student Dress Code shall remain in effect, consistent with any site-based school uniform policy adopted by a school.
4. Process for Adoption of a Site-Based Student Uniform Policy
 - a. In all aspects of this process, appropriate accommodations shall be provided to parents/guardians, to include interpreter services at meetings and translation of documents.
 - b. Initial Meeting. If a school is interested in adopting a student uniform policy, the principal or their designee shall convene a parent/employee/community meeting to discuss and receive input regarding the adoption of such a site-based policy. The District, through Associate Chiefs in the Office of Teaching, Learning, and Leadership (TLL), shall provide the principal or designee with informational materials and other support related to the adoption process.
 - c. Coordinating Committee:
 - i. If the principal or their designee finds there is sufficient interest in pursuing a student uniform policy, he/she shall determine the method for selecting parents/guardians, students, and employees to serve on a coordinating committee; and, the principal or designee shall select the voting members of the committee.
 - ii. All meetings of the coordinating committee shall be open to the public. All reasonable efforts must be made to communicate the date, time, and location of meetings of the coordinating committee so that all impacted students, their families, and other members of the community are encouraged to attend.
 - iii. The committee shall consist of a minimum of 9 voting members, with non-staff parents/guardians constituting a majority of the committee members and representing the diversity of the school community being representative of the school’s ethnic diversity.
 - iv. The coordinating committee shall:
 - 1) Compile cost information.
 - 2) Communicate the proposal with parents/guardians, students, and employees to include, but not limited to:

- a. A minimum of one parent/guardian meeting and one employee meeting to discuss the proposal;
 - b. Communication of notice of the meeting(s) to parents/guardians through use of the District's telephone messaging system and electronic mail; and
 - c. As available, the uniform selection process, meeting information, and the draft site-based policy shall be posted to the school's website for review by the school community.
 - 3) Submit the finalized proposal for school uniform options to the District's Office of Accountability. Office of Accountability shall create the final version of the Household Survey.
- v. Household Survey
- 1) To ensure an unbiased, fair, and consistent process, distribution and tabulation of the surveys will be facilitated through the District's Office of Accountability.
 - 2) One survey will be sent per family of the school that are eligible to vote (regardless of the number of students within that family) based on the student's primary address in the District's student records database. The District shall make every effort to provide a survey to all families of a student officially enrolled in the school.
 - a. Families eligible to vote refers to parents/guardians of students zoned for a school (i.e., current 5th graders who will be 6th graders for a middle school survey) and parents/guardians of students who currently attend the school. It does not include those students who will be exiting the school prior to implementation (i.e., current 8th graders for a middle school survey). The principal shall retain the discretion to determine inclusion of future students (i.e., students in pre-kindergarten); and
 - b. Any survey not returned by a pre-determined date shall be voided.
 - 3) As possible, the survey will be distributed electronically. Every attempt will be made to attain the electronic mail

address of the primary parent/guardian for the student (based on the student's primary parent/guardian contact in the District's student records database.) When mailing of a survey is necessary, the individual school shall be responsible for the cost of mailing. Other cost-effective forms of distribution may be considered, such as distribution through students.

- 4) The survey shall pose the sole question as to whether parents/guardians support the school adopting a standard student uniform policy. Pro and con statements and a description of the proposed standard student uniform will be included on the survey.
 - 5) Results of the survey will be forwarded to the school principal, who shall be responsible for oversight of implementation of the site-based policy. Each of the following criteria must be met before the principal may submit the proposal for final approval to the Superintendent or designee:
 - a. A minimum of 10% of the families who were eligible to vote must respond to the survey.
 - b. Of those who respond to the survey, the proposal must be endorsed by more than 50% of the families who were eligible to vote.
 - c. Of those who respond to the survey, in the case of a tie, the site-based policy will be extended for one year and the survey process, as outlined in this regulation, shall be conducted again the next school year.
 - 6) The completed surveys shall be made available to the public upon request.
- d. Upon approval of adoption, by the Superintendent or designee, the principal or designee shall schedule, within a reasonable period of time, an open information meeting for all families with students who attend the school to describe the program and discuss its implementation. The members of the coordinating committee should be in attendance to answer questions.
