DEFINITIONS

1. "Crisis" means a traumatic and sudden event or emergency condition that: involves violence; profoundly and negatively affects or will affect students and/or employees; occurs on the property of a school, at an activity sponsored by a school or on a school bus while the bus is engaged in its official duties; and may involve serious injury or death.
2. "Emergency" means an occurrence or threatened occurrence for which action is necessary to save lives, protect property or to protect the health and safety of persons, or to avert the threat of damage to property or injury to persons, on the property of a school, at an activity sponsored by a public school or on a school bus while the bus is engaged in its official duties.

 - b. Protection: The capabilities to secure schools against acts of violence and manmade or natural disasters. Protection focuses on ongoing actions that protect students, teachers, staff, visitors, networks, and property from a threat or hazard.

- c. **Mitigation:** The capabilities necessary to eliminate or reduce the loss of life and property damage by lessening the impact of an event or emergency. In this document, “mitigation” also means reducing the likelihood that threats and hazards will happen.
- d. **Response:** The capabilities necessary to stabilize an emergency once it has already happened or is certain to happen in an unpreventable way; establish a safe and secure environment; save lives and property; and facilitate the transition to recovery.
