BOARD POLICY 9050

GOVERNING MODEL OF THE BOARD OF TRUSTEES

PURPOSE

It is the mission of the Board of Trustees ("Board") to serve as stewards of the Washoe County School District ("District") to create an education system where all students achieve academic success, develop personal and civic responsibility, and achieve career and college readiness. The intent of this policy is to outline the basic principles of the governing mission of the Board of Trustees. By engaging in the Balanced Governance Model the Board intends to set and monitor high end-goals for student learning and be knowledgeable about the means used to reach those ends.

Definitions

1. "Balanced Governance" is a governance model that reinforces the Trustee's role of informed oversight by ensuring a "balance" of governance that discourages micromanagement of the Superintendent and District staff while setting out a constructive role for Trustees with "informed oversight".
2. "Informed oversight" is avoiding any tendency for Trustees to become disengaged and abdicate their oversight responsibilities to the superintendent or, conversely, to engage in over-reach into the management duties of the Superintendent or staff.

POLICY

1. Governance Commitment. The Board, on behalf of the people of Washoe County and for the benefit of students and families of the District, commits to adopt the Balanced Governance Model in order to:

The Board is accountable to the people of Washoe County for providing informed oversight to ensure the competent, conscientious and effective accomplishment of the District's Values, Mission, Vision, Strategic Goals, and Balanced Governance Model Standards focused on improved learning for all students. Accordingly, the Board shall:
 - a. Practice balanced governance by cultivating and enforcing a balance between the oversight role of the Board and the administrative role of the Superintendent. Accordingly, the Board shall use its knowledge of community needs and their judgment as to the District's progress on the District Values, Mission, Vision, Strategic Goals, and Balanced Governance Model Standards to initiate and/or approve new or revised policy. The Board shall consistently use relevant data and expertise regarding federal,

state, contractual, and staff needs, provided by the Superintendent, in initiating and requesting new policy and policy revision and in consideration of policy approval.

- b. Cultivate a sense of group responsibility. The Board shall consider diverse viewpoints from the community and staff but not substitute individual expertise or interests for the judgment of the Board. Similarly, while the expertise of individual Trustees is recognized and may enhance the understanding of the Board decisions shall be made only as a full Board. Individual members of the Board statutorily hold no individual authority and therefore should not be provided, through policy or practice, undue influence on policy and/or program development nor given deference in Board discussion, nor undue influence in Board decision making.
- c. Govern the organization with informed oversight through the careful establishment of broadly written policies, which reflect the needs of the District's students and the community's values and perspectives. The Board's major policy focus shall be on addressing:

By doing so, the Board shall maintain a balanced role with the Superintendent.
- e. Receive information from the Superintendent that reflects the progress or the need for improvement toward the District Values, Mission, Vision, Strategic Goals, and Balanced Governance Model Standards. The Board may craft within policy, tracking and reporting protocols for the Superintendent to ensure quality control and the necessary data to practice informed oversight.
